

Reviewer CD

View & browse files from any DICOM or proprietary DISC with this easy-to-use, FREE software.

Reviewer R-Scan

Easily scan paper documents & store on PACS; use your TWAIN scanner to DICOMize, organize & unify records.

Reviewer 2DICOM

Add multimedia files to your studies; drag & drop numerous file formats to DICOMize & incorporate into your PACS.

Reviewer Importer

Import files from any source, including DICOM & proprietary DISCs, USB drives & any networked drive.

Reviewer MD

Burn, view, store, import & share studies from a variety of sources; send to a printer or create an encrypted DISC on the fly.

Reviewer Admin

View, import, burn, share, scan, re-identify, encrypt & MORE; do it all with this Master Edition combining features from all editions of Reviewer.

Plus+ feature now standard on select Reviewer editions

- + View + import proprietary* DISC formats
- + Avoid re-imaging patients
- + Eliminate secondary requests for DICOM DISCs

* Merge (AMICAS®) & iSite (iSyntax)

Enhancing consistency across the enterprise.
